

Attention Parents, Guardians and Community Members:

Elementary students will be moving to the new Gift Lake Learning Centre to resume classes and will not return to the temporary school near the community hall.

Staff members are currently moving materials to work towards having students in the school April 20th. Alberta Infrastructure is working with the builders and Northland School Division staff to address work that needs to be completed inside and outside the school.

Once elementary students are settled into the school and work to the junior high wing is complete, we will set a date to move junior high students. In the meantime, they will continue to attend classes at the Northern Lakes College Campus in Grouard.

Thank you students, parents and community members for your time. **Information is posted on the Gift Lake School website www.giftlakeschool.ca.**

Sincerely,

A handwritten signature in black ink that reads "Donna Barrett".

Donna Barrett
Superintendent of Schools
Northland School Division No. 61
